

Town of Uxbridge

Uxbridge Community Electricity Program

March 6, 2024

Dear Uxbridge Electricity Customer,

The Town of Uxbridge is offering Uxbridge Community Electricity, which provides Town-vetted options for electricity supply. National Grid will continue to deliver your electricity, however, the electricity supplier was chosen by the Town of Uxbridge through a competitive bid process that leveraged the bulk-buying power of our community, understanding that savings cannot be guaranteed.

You will be automatically enrolled in the Uxbridge Community Electricity product, “Uxbridge Standard,” as of your next available electricity meter read, unless you choose one of our optional products or choose to opt out.

To opt out and avoid automatic enrollment in the Uxbridge Community Electricity Program, you must do one of the following before April 8, 2024:

 **mail and postmark the enclosed opt-out card** OR  **call Direct Energy at (866) 968-8065** OR  **submit the opt-out form at uxbridgeelectricity.org**

Participants may also opt out of Uxbridge Community Electricity at any time during the Program without penalty. Please read further to learn more about Uxbridge Community Electricity.

UXBRIDGE COMMUNITY ELECTRICITY GOALS

Competitive and Stable Prices

All Uxbridge Community Electricity prices are fixed through December 2024, whereas National Grid Basic Service prices will change after nine months for Residential and Commercial customers, and every three months for Large Commercial and Industrial customers. Uxbridge Community Electricity offers options that are intended to be price-competitive with National Grid Basic Service, however, **savings cannot be guaranteed**. This is because Basic Service rates are not known for the entire period of Uxbridge’s contract, and may therefore be above or below Uxbridge Community Electricity rates in any given period.

No Obligation

Uxbridge Community Electricity includes the ability to leave the Program at any time without penalty.

Electricity Choice

Uxbridge Community Electricity offers two different electricity supply choices with different levels of renewable energy certificates (RECs) to match your budget and climate goals.

UXBRIDGE COMMUNITY ELECTRICITY PRODUCTS

Standard Product

Uxbridge Standard: This is the **standard product** that you will be automatically enrolled in if you do nothing. The goal for this product is to be equal to, or lower than, the average National Grid Basic Service rates over Uxbridge’s contract term. However, as Basic Service rates change, **savings cannot be guaranteed** for any given period.

Other Products

Uxbridge Community Electricity also offers an optional electricity product with a different amount of RECs relative to mandated requirements. To enroll in this optional product, you must contact the supplier, **Direct Energy**, at (866) 968-8065, or sign up on the program website: uxbridgeelectricity.org.

Uxbridge Plus: This is an **optional product**. It includes Renewable Energy Certificates (MA Class I RECs) equal to one hundred percent (100%) of a customer's electricity consumption, in addition to the minimum number of RECs required by the Commonwealth.

Solar Electricity Consumers will not be impacted and will continue to receive their net metering credits while participating in the Program.

Exit Terms for Basic Service: There is no penalty charge for leaving National Grid's Basic Service, however, Industrial customers (G-2 and G-3) may receive a reconciliation charge or credit. If you have already chosen a Green Power supply option on your own, you must opt out of this Program. This will ensure you continue to receive your electricity from that Green Power Supply.
